

CELEBRATING A DECADE OF PREVENTION AND EARLY INTERVENTION SERVICES FOR CHILDREN IN IRELAND

The Prevention and Early Intervention Network, Tusla's Prevention Partnership and Family Support and the National Area Based Childhood Programme have come together to celebrate the significant developments in Prevention and Early Intervention services for children in Ireland over the past decade.

This celebration will be marked through a series of collaborative events taking place between October 2024 and October 2025!

We want to mark the 1st anniversary of the passing of Chuck Feeney, by remembering his significant contribution to the development of prevention and early intervention in child and family services in Ireland. The legacy of The Atlantic Philanthropies investment in both the community and voluntary and the statutory sectors in Ireland continues to have meaningful impact today.

The core focus of this investment, along with State support, was to improve wellbeing and developmental outcomes for children through the delivery of evidence-based supports, most particularly early in life. This included universal supports for all children and families, and services targeted to the needs of particular populations and communities.

A DECADE OF EARLY SUPPORT AND LASTING CHANGE

Today, the key legacy of this investment includes the National Area-Based Childhood (ABC) Programme, Tusla's Prevention, Partnership and Family Support Programme (PPFS) and the HSE's National Healthy Childhood Programme (NHCP). Indeed, the Prevention and Early Intervention Network (PEIN) itself was established with Atlantic funding.

It doesn't stop there; many other philanthropic investors, public fundraising and state investments, have led to further developments and progress in bettering the lives of children in Ireland.

So together across the community, voluntary and statutory sectors, we are celebrating and shining a light on prevention and early intervention services for children and families in Ireland, including the people, policy, best practices, evidence, partnerships, networks and impact on children and indeed Irish society as a whole.

If your organisation or service has been involved in the development and implementation of prevention and early intervention in Ireland over the last decade, is holding an event between October 2024 and October 2025, and would like to join us in marking this celebratory milestone, please get in touch. We will provide you with our umbrella logo and a couple of slides to share. We will also include it in the calendar of events.
